

Solelspaket premium

Kvalité rakt igenom

- **BENQ SunForte** monokristallina solpaneler med linjär effektgaranti (25 år-87%), en av världens absolut finaste paneler.
- Växelriktare från ledande **SMA**, världens största tillverkare. **SMA** har 3-fas växelriktare från 5kW och uppåt.
- **IBC-solars** toppklassade montagesystem, finns till alla typer av tak.

SunForte PM096B00
Mono-Crystalline Photovoltaic Module

20% EFF.

- Power Range:** 320W - 330W
- Highly Strengthened Design:** Module complies with advanced loading tests to meet 5400 Pa loading requirements.
- Resistance to Salt Corrosion and Humidity:** Module complies with IEC 61701: Salt Mist Corrosion Testing.
- Back Contact Cells:** No string as the front side enhances light conversion space.
- IP-67 Rated Junction Box:** Advanced water and dust proof level.
- Transformer less:** Validates the compatibility with transformer-less inverters at high system voltage.
- PID-Free**
- Anti-Reflection Coated Glass:** Anti-reflection surface enhances the power performance.

SUNNY TRIPOWER 5000TL - 12000TL

SMA

NEW - available as 10 kVA and 12 kVA versions

Economical	Flexible	Communicative	Easy-to-Use
<ul style="list-style-type: none"> Maximum efficiency of 98% Module management with Cyfline Global Peak Active temperature management with CyfCool 	<ul style="list-style-type: none"> DC input voltage of up to 1,000V Integrated grid management functions Reactive power supply Stable-oriented system design with Cyfline 	<ul style="list-style-type: none"> SMA Webconnect Sunny Portal communication Bluetooth® communication Simple country configuration Multifunction relay comes standard 	<ul style="list-style-type: none"> Three-phase infeed Cable connection without tools SUNCI® DC plug-in system Integrated ESS DC switch-disconnector Easy wall-mounting

SUNNY TRIPOWER 5000TL - 12000TL
The Three-Phase Inverter - Not Only for Your Home...

...but also perfectly suited to the design of the traditional residential PV system up to the higher power outage range. After all, with the addition of the new 10 kVA and 12 kVA versions to the portfolio, the Sunny Tripower product range covers a broad spectrum of applications. Users benefit from numerous tried-and-tested product features. Highly flexible with its proven Cyfline technology and asymmetrical multi-tapping, it delivers maximum yields with a top efficiency rating and Cyfline Global Peak. In addition to Bluetooth communication, it also comes standard with a direct Sunny Portal connection via SMA Webconnect. Other standard features include integrated grid management functions, reactive power supply and suitability for operation with a 30 mA RCD. In summary, when it comes to system design in the 5 to 12 kW power classes, the Sunny Tripower is the optimum product solution - for applications ranging from use in your own home and larger PV rooftop systems to implementation of smaller-scale PV farms.

Smart Systems for Solar Power **IBC SOLAR**

Withstands heavy snow loads

Materialpaket

(Pris inkl moms, komplett baspaket* för driftklar installation, montage ingår ej, vi monterar gärna - begär offert)

- 5,3kW 16st 330W-paneler **96 000:-**
(producerar ca 5000kWh/år i optimalt läge)
- 10,6kW 32st 330W-paneler **179 000:-**
(producerar ca 10100kWh/år i optimalt läge)
- 20,8kW 63st 330W-paneler **331 000:-**
(producerar ca 19800kWh/år i optimalt läge)

*baspaket = lämpligt för okomplicerad installation på vanligt tegeltak, korrugerat plåttak etc
